NEWBORN PORTRAITS

Oh the joy of holding your tiny little baby for the first time! But they grow up so fast and you do not want to miss this chance to capture portraits of them so you can cherish this moment in life forever. I recommend the best time to photograph newborns when they are between 5 and 12 days old. The sessions are about 2 to 3 hours long with various poses, props and styling. As soon as possible after your baby is born just let me know and we will schedule your session to fit this time frame.

I encourage parents to sit back and relax during most of the session. You are more than welcome to sit right next to your newborn during your session if you feel more comfortable. I will be completely on your newborns schedule. We will take all of the necessary time to feed, cuddly and let your little one drift off into that deep, deep sleep.

CHILDREN'S PORTRAITS

CHILDREN HAVE A SPECIAL WAY OF ADDING LOVE TO EVERY DAY

We absolutely love photographing children! Our goal is too always create a fun, safe and comfortable experience for you and your child. We realize that sometimes it takes a little bit for little ones to warm up and just let go. Our approach is to just let them be kids and give them time to adjust. Never rushed... just relax, play and have a good time.

Let us capture the smiles an the laughter because, as you know, time flies by and before you know it they are all grown up and off to begin their own lives.

SELECTING YOUR PRINTS & PRODUCTS

The most important decision in the portrait process is the selection of images for your home. After your session we will set up a time for you to come into the studio and view your portraits. Coming into the studio to place your order is the best choice in that you can view your images on our calibrated screen and see actual samples of finishes, sizes and products. A 16x20 may sound enormous at first, but above a couch or fireplace can seem small. You can then decide whether you would like traditionally framed prints, board mounted canvas prints or canvas gallery wraps. (And we even offer specialty products - standouts & metal prints!)

Once you have decided on your print selections it's time to to decide on other products you might be interested in. Don't worry, we will make the task of choosing easier with a variety of samples you can view and touch and feel in the studio.

COFFEE TABLE BOOKS & WOODEN IMAGE BOXES

One way to have a copy of every one of the photos from your session shoot is our coffee table book or image boxes. They are something that you will want to show friends and family or even hand down to your own children. White Design coffee table books are designed entirely by me based your style. Images are not sent off to be designed for you by someone who wasn't at your shoot.

I generally recommend people come into the studio to see the coffee table books in the flesh as they really do have to be seen for you to fully appreciate their high level of quality.

They are available in a range of covers from personalized photo covers, leather and even metal, your images are printed directly onto the page on linen, pearl or canvas textured pages to produce a stunning magazine style book that is certain to impress.

We also offer walnut image boxes in both 4x6 and 5x7 sizes. These beautiful boxes contain a print of every photo from your shoot. As an upgrade you can choose to have a matching USB with your image files and print release
