SENIOR PORTRAITS WITH

A Difference

YOU CAN SEE

At White Design your portrait experience ensures that you receive your portraits your way!

We strive to take your senior portraits to the next level with a difference you can see right away. Your portrait experience will be fun - even if you don't like having your photograph taken.

It takes a lot more than a professional digital camera to make a creative portrait that you and your parents will cherish for years. Take a look at our images and compare them to other photographers. Look closely at the color, retouching, flattering lighting, easy relaxed poses and the creativity of the portrait.

This attention to detail and dedication to the artistry doesn't come with instructions on a digital camera. It comes with the expertise gained from years of experience, an artistic eye and years of training. That's why you should trust your senior portraits to someone who knows how to make you look and feel your absolute best.

We don't just want to capture an "image" of you but to capture the real you. We'll create portraits that explore the different sides of your personality. Let us know what you like and let us take it from there!

Being a high school senior means going to class all year long, studying for tests, taking exams but also includes fun stuff too like taking your final high school year portraits that you can show off to your friends and relatives and make them envious and proud of you. They will all want to know where you had your senior portraits taken and you'll be able to tell them in a boasting way and encourage them in to coming to our portrait studio where you get a fun photographer to work with you, make jokes and have a one-on-one portrait session.

Let this be an experience you'll never forget.

WHAT WE OFFER

Our Products

A couple of weeks after your session we will get with you to set up a time for you to come into our studio too look at our products and choose what prints and products you want to purchase. We offer many different carefully selected products that you are sure to love. Our products include invitations, custom story books, custom image boxes, folios, photo jewelry, metallic prints, fine art metal portraits & canvas portraits, that you are sure to cherish for years to come.

And if there is something you don't see on our list, please let us know and we will do our best to get it for you.

PRINT OPTIONS, GALLERY WRAP CANVAS & INVITATIONS

The most important decision in the portrait process is the selection of images for your home. After your session we will set up a time for you to come into the studio and view your portraits. Coming into the studio to place your order is the best choice in that you can view your images on our calibrated screen and see actual samples of finishes, sizes and products. A 16x20 may sound enormous at first, but above a couch or fireplace can seem small. You can then decide whether you would like traditionally framed prints, board mounted canvas prints or canvas gallery wraps. (And we even offer specialty products - standouts & metal prints!)

Once you have decided on your print selections it's time to choose and design your senior invitations. Our invitations are custom designed on heavy weight linen texture or pearl paper in house to fit your unique personality. Don't worry, we will make the task of choosing easier with a variety of samples you can view and touch and feel in the studio.

We offer many different carefully selected specialty products that you are sure to love. Our specialty products include invitations, custom story books, custom image boxes, folios, photo jewelry, metallic prints, fine art metal portraits & canvas portraits, that you are sure to cherish for years to come.

COFFEE TABLE BOOKS & WOODEN IMAGE BOXES

One way to have a copy of every one of the photos from your senior shoot is our coffee table book or image boxes. They are something that you will want to show friends and family or even hand down to your own children to show how mom or dad looked back in the day. White Design coffee table books are designed entirely by me based your style. Images are not sent off to be designed for you by somebody who wasn't at your shoot.

I generally recommend people come into the studio to see the coffee table books in the flesh as they really do have to be seen for you to fully appreciate their high level of quality.

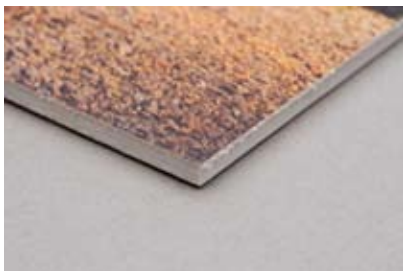

They are available in a range of covers from personalized photo covers, leather and even metal, your images are printed directly onto the page on linen, pearl or canvas textured pages to produce a stunning magazine style book that is certain to impress.

We also offer walnut image boxes in both 4x6 and 5x7 sizes. These beautiful boxes contain a print of every photo from your shoot. As an upgrade you can choose to have a matching USB with your image files and print release
